## NO LABELS

No Labels is an improvisation competition unlike any other for any 12-14 or 15-19 soloist that registers. Based on a "Movement quality" score they receive during their solo (similar to how title routines are scored differently than the adjudicated score during solo performances), the top 5 dancers for each age group will move onto the improvisation finals. From a pool of 5 songs, each finalist will choose their music (from a list presented to the dancers) and have 45 seconds to dance their hearts out. They will be scored based on originality, quality of movement, concepts of movement to earn the title of "No Labels Ambassador" in their city. No Labels will be in ALL cities in 2026.
